CAREER OBJECTIVE

Motivated and enthusiastic Full Stack Developer and AI enthusiast looking forward to an opportunity within the IT field to apply technical expertise in web development and artificial intelligence. Eager to contribute to innovative projects associated with frontend, backend, and intelligent system integrations while continuously enhancing skills and adapting to emerging technologies.

EDUCATION

Bachelor of Engineering, Electronics and Communication Engineering	2022-2026
SNS College of Engineering, Coimbatore	9.82
Senior School	2022
Kongunadu Matric Higher Secondary School	87.16%
Secondary School	2020
Kongunadu Matric Higher Secondary School	98.6%

SKILLS

Programming	Java, HTML, CSS, JavaScript, Python
Framework & Libraries	React.js, Express.js
Tools	Canva, Visual Studio Code, Postman
Salesforce	Apex (Basics), LWC, Flow Builder
Version Control	Git & Github
Backend	Node.js
Databases	MongoDB, SQL
Soft Skills	Team Work, Time Management, Communication, Leadership

EXPERIENCE

Full Stack Developer Intern (Remote) Jul 2025 - Present
[Syncner](#)

- Built web apps using React.js and Node.js.
- Designed APIs with Postman and optimized database queries.

Artificial Intelligence Intern (Remote) Sep 2025 – Nov 2025
[Infosys Springboard](#)

- Built an AI based Speech Translation System using Flask, JavaScript and Google/Microsoft APIs.
- Gained experience in AI integration, web development and multilingual communication systems.

PROJECTS

JobCuro: [Github](#)

- Built a full-stack platform for job seekers to explore and apply for opportunities using React.js, Node.js, and MongoDB.
- Integrated real-time job listings and secure JWT authentication for a smooth user experience.

AI-Powered Real Time Speech Translation for Multilingual Content: [Github](#)

- Developed an AI-powered real-time speech translation web app using Flask, JavaScript, and Google/Microsoft APIs, supporting 12+ languages.

- Integrated speech recognition, translation, and text-to-speech with a responsive teal glassmorphic UI for seamless multilingual interaction.

WeatherDashboard:

[Github](#)

- Built Weather Dash, a React + Node.js dashboard displaying current weather, 5-day forecast, and historical charts.
- Implemented user preferences, caching, and rate limiting for optimized performance and personalized experience.

CERTIFICATIONS

Azure AI Fundamentals Microsoft	Jun 2025 Certificate
Agentforce Specialist Salesforce	Aug 2025 Certificate
AI Associate Salesforce	Oct 2024 Certificate
SnowPro Associate Snowflake	Jul 2025 Certificate
Cloud Infrastructure Certified Foundations Associate Oracle	Feb 2025 Certificate
Java PrepInsta	Sep 2023 Certificate
SQL(Basics) Hackerrank	Jul 2025 Certificate

ADDITIONAL CREDENTIALS

TCS iON National Qualifier Test (Cognitive) TCS iON	May 2025 Credential
IBM Certified Enterprise Design Thinking Practitioner IBM	Feb 2024 Credential
The SecOps Group: Certified Appsec Practitioner SecOps	Mar 2025 Credential
GitHub Advanced Security Practitioner GitHub	Jun 2025 Credential

EVENTS ATTENDED

Idea to App (Vibe Coding) – Participated Wavicle Data Solutions LLC	Meetup 2025
National Conference (ELECTROX'23) – Participated Online	Conference 2023
